

Login.gov

Starting with the 6.10 eVoucher release, attorneys and experts are required to use Login.gov to securely sign in to the eVoucher application. Login.gov provides a simple, secure, and private way to access government websites such as eVoucher. Using one account email address and password, you can securely sign in to participating government websites and verify your identity. To access your eVoucher account, you must have a Single Login Profile (SLP) and create or sign in to an existing Login.gov account.

Note: Login.gov is a separate application from eVoucher. If you run into any issues, you **must** contact Login.gov support via their Help center page at <https://www.login.gov/contact> or call their 24-hour help line at (844) 875-6446.

Create a Login.gov Account

Step 1

If you are accessing eVoucher for the first time after Login.gov integration, you will be directed to create a Login.gov account.

On the eVoucher sign-in page, click **Sign in with LOGIN.GOV**.

The screenshot shows the top of the CJA eVoucher sign-in page. At the top left is the United States Courts logo. To its right, the text reads "CJA eVoucher - Texas Eastern District Court" and "Release 6.10.0.0". Below this is a large heading: "We've changed how you will sign in to eVoucher!". Underneath the heading is a paragraph: "We now require users to sign in with a Login.gov account. After linking your Login.gov account with your eVoucher account, you will use Login.gov for all future sign-ins." Below this paragraph is a blue button with white text that says "Sign in with LOGIN.GOV". A red arrow points to this button from the right. Below the button is another heading: "Need to create a Login.gov account?". Underneath is a paragraph: "Use the Sign in button above and then use the 'Create an account' button below the sign in fields. Learn about our new sign in process." At the bottom of the screenshot is a "Notice" section with a paragraph of legal disclaimer text.

Step 2

On the Login.gov page, click **Create an account**, and then follow the prompts to begin creating your account.

Step 3

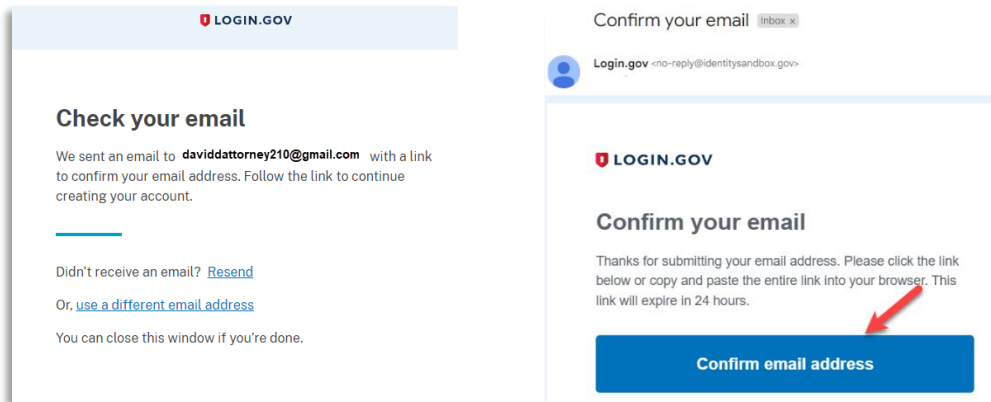

Enter your email address, and select your email language preference. Click the **Rules of Use** link, read the Login.gov Rules of Use, and then select the **I read and accept the Login.gov Rules of Use** check box. Then click **Submit**.

Note: Login.gov recommends that you enter a personal email address that you can always access, not a work email address.

Step 4

You will receive an email message at the email address you entered in step 3. In the email message, click **Confirm email address**, and then continue creating your account.

**Step 5**

Next, create a password. It must contain 12 or more characters and cannot include commonly used words or phrases. In the **Password** and **Confirm password** fields, enter and confirm your password, and then click **Continue**.

The screenshot shows a form titled 'Create a strong password' with a green success message at the top: 'You have confirmed your email address'. Below the title is a note: 'Your password must be 12 characters or longer. Don't use common phrases or repeated characters, like abc or 111.' There are two input fields: 'Password' and 'Confirm password', both containing masked characters. A 'Show password' checkbox is below the fields. A blue 'Continue' button is at the bottom. A red box highlights the two password input fields.

Your Login.gov account is now created.

Note: Once your Login.gov setup is complete, you will ONLY use the email address you entered and the password you created in Login.gov to access eVoucher, so it is important to remember them. You are now directed to add an authentication method. For more information on how to do this, view the Adding an Authentication Method job aid.
